

**DEPARTMENT OF THE AIR FORCE
HEADQUARTERS 36TH WING (PACAF)
ANDERSEN AFB, GUAM**

2 December 2020

MEMORANDUM FOR ALL PERSONNEL TRAVELLING TO ANDERSEN AIR FORCE BASE (AAFB)

FROM: 36 WG/CC

SUBJECT: AAFB Restriction of Movement (ROM) Procedures

Reference: (a) Joint Policy for DoD Personnel Assigned on Guam, 2 December 2020, Public Health Restriction of Movement Policy for DoD-Affiliated Personnel Returning to Guam on Unofficial and Official Travel

1. All Department of Defense (DoD) service members, dependents, DoD Civilian employees, and contractors travelling to AAFB will conduct ROM. ROM is designed to protect our population from exposure to personnel who may have become infected with COVID-19 before or during travel. AAFB ROM duration is 14 full 24-hour periods based on the minimal 14-day COVID-19 incubation period, or the time it takes for personnel infected with COVID-19 to develop signs and symptoms. AAFB ROM is supplemental to any higher headquarters policy.
2. All DoD service members, dependents, DoD Civilian employees and contractors travelling to AAFB via any means (including military airlift), must coordinate their arrival through their sponsoring unit & with the AAFB Joint Reception Team (JRT): 671-362-5557, 671-688-4013, 36WG.JRT.ResponseSection@us.af.mil. The JRT will provide inbound personnel the latest 36th Wing COVID-19 policy during coordination and again upon arrival. The JRT will also assist with assigning personnel to the Government of Guam's Joint Task Force listing as appropriate.
3. In addition to reference (a), the following restrictions shall be followed by personnel on ROM:
 - a. Personnel are restricted from accessing workplaces, public areas, stores, gyms, recreational facilities, etc. Personnel will coordinate sustainment needs with their sponsoring unit.
 - b. Personnel will not engage in any social or group activities. If lodged on base, personnel may briefly exit their designated ROM location for essential purposes such as fitness/wellness activities or laundry. Personnel must remain in the vicinity of their ROM location, maintain six feet of physical distancing from others, wear masks except when conducting physical fitness, and sanitize/disinfect any shared surfaces afterwards. If lodged off-base, personnel must adhere to Government of Guam quarantine policies.
 - c. Personnel will self-monitor for COVID-19 related signs and symptoms as listed by the Centers for Disease Control and Prevention (CDC). Personnel who develop symptoms will immediately isolate, notify their chain of command, and report symptoms by phone to either 671-366-9355 (366-WELL) for beneficiaries or a local healthcare provider hotline for non-beneficiaries.
 - d. Transient aircrew may conduct mission-essential activities but will minimize visits to on-base shops and restaurants, minimize contact with personnel, and minimize time in public areas. Aircrew will maximize use of on-base takeout or delivery dining options. Aircrew lodged off base will proceed directly to and from hotels and base.
4. After coordination with the JRT and with approval from an O-6 assigned to the 36th Wing, personnel who receive a negative COVID-19 test result on or after the 6th full day of ROM, are authorized to report to work for authorized mission-essential duties and shop for essentials such as food and medical supplies.
5. Commanders may tailor this policy with a supplemental ROM to allow 36th Wing mission essential personnel, deployed, and temporary duty personnel to conduct mission-essential activities. The approval authority for supplemental ROM is no lower than an O-6 assigned to the 36th Wing. The supplemental ROM policy should take in to account whether personnel conducted pre-departure ROM (14 full 24-hour periods), traveled via military airlift through a clean corridor, and/or obtained a COVID-19 PCR or antigen negative SARS-CoV-2 test result from a DoD-approved laboratory within 72 hours from arrival on Guam. The supplemental ROM policy must be

coordinated with the 36 MSG/CC, 36 MDG/CC, and AAFB Public Health Emergency Officer (PHEO). The supplemental ROM policy may include an off-base lodging arrangement. An example supplemental ROM policy is included as an attachment to this memorandum. Transients and personnel of tenant units, including civilians and contractors, must also receive approval from an O-6 assigned to the 36th Wing.

6. Units operating at AAFB must submit daily ROM situational reports for all personnel in ROM to the 36th Wing Command Post at 36WG.CP@us.af.mil or 671-366-2981.

7. All personnel must comply with Governor of Guam executive orders and policies while off installation.

8. DoD policy requires that military installations, property, and personnel and other individuals working on, residing on, or visiting military installations will be protected under applicable legal authorities and emergency health powers against communicable diseases. Violations of this policy by military personnel may be subject to punishment under Article 92, UCMJ. Failure to comply by civilian employees may result in disciplinary or administrative action. Violations by dependents and contractors may result in administrative sanctions, up to and including barment from base, or loss of command sponsorship for dependents.

9. This memo supersedes the previous 36th Wing ROM Procedures dated 30 July 2020.

10. My point of contact is Lt Col Keith O'Halloran, 36 OG/CD, 671-366-3664, keith.ohalloran@us.af.mil.

JEREMY T. SLOANE
Brigadier General, USAF
Commander
