

Navigating a single-lane roundabout

MOTORISTS

① Approach:

Slow down to the posted speed. Yield to pedestrians in the crosswalk; they have the right-of-way.

② Enter:

Yield to vehicles in the roundabout. Wait for a gap in traffic, and merge into traffic in the roundabout in a counterclockwise direction.

③ Proceed:

Continue through the roundabout until you reach your street. Never stop in the roundabout.

④ Exit:

Signal, then exit the roundabout to your right. Yield to pedestrians in the crosswalk.

Approaching vehicles must yield to pedestrians in the crosswalk and to traffic in the roundabout.

PEDESTRIANS

① Approach:

At the pedestrian crosswalk, look LEFT.

② Cross:

Cross to the raised or painted splitter or refuge. Look RIGHT. Finish crossing to the opposite sidewalk.

Never walk through a roundabout or cross the center island.

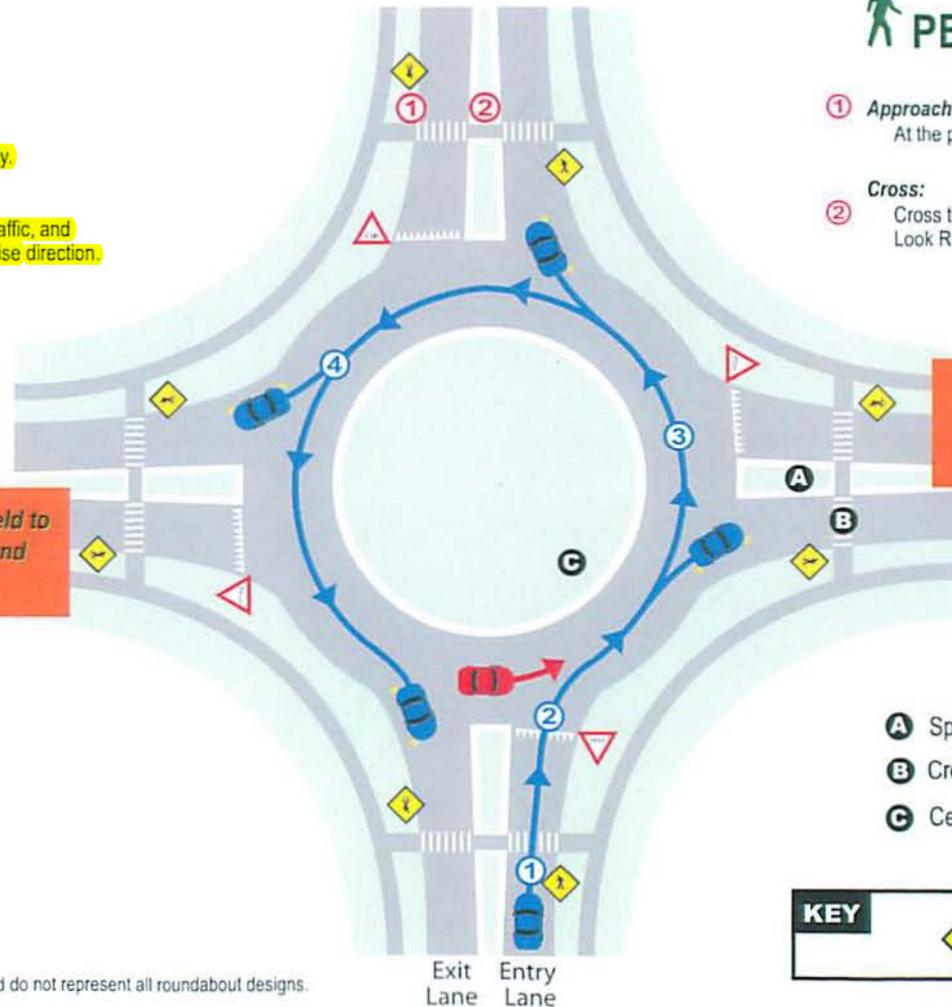

CYCLISTS

Generally, cyclists should walk their bicycles across the pedestrian crosswalk.

Experienced cyclists may navigate roundabouts like motorists. Do not hug the curb. Ride in the middle of the lane to prevent vehicles from passing you. Yield to pedestrians in crosswalks.

Please note that these roundabout diagrams are examples only and do not represent all roundabout designs.
